

Programs for

CHILDREN OF THE PAST

Presented by

Environmental Conservation Organization

CHOOSE ONE OF OUR UNIQUE PROGRAMS FOR YOUR SENIOR ACTIVITY CALENDAR

Our programs are specially designed for sharing with your senior residents. For 90 minutes we interact with groups of 10-25 using a "hands-on" format which gets them totally involved.

Choose one or put together a series from our list below.

Give us a call today to schedule your programs!

MEDICINE PLANTS

Look at plants ranging from wetlands to forests through a pharmacological perspective. Examine, smell and compare actual specimens. It is exciting to learn how these plants have been used for generations to heal and promote wellness. See how easy it is to make a soothing skin ointment. Our most popular experience!

THE FLORIDA EVERGLADES: A WETLAND IN PERIL

Explore our own National Treasure and understand just how important it really is to us. You'll experience the smell, the feel and the promise of this threatened World Heritage Site located right in our own backyard. Be prepared to come face to face with a few of the threatened creatures of our Everglades ecosystem. A fascinating experience!

LORE OF GEMSTONES

Who doesn't love gemstones! The lore and mystery behind each of them is fascinating especially when you have the opportunity to compare both the rough and polished stones. Visit the actual mines where each of these originated through the eyes and experiences of the presenter; examine actual stones after they are mined. Determine value based on carats, color and culture! Bring your own treasures to share!

SLEUTHING FOSSILS

Dinosaurs are not the only fossils we love to discover! Dig into the past with this fascinating exploration of fossils from around the world. Get up close and personal with specimens usually seen in museums. After getting familiar with the specimens, engage in a bit of "discovery" as we search out genuine fossils.

You'll be surprised how exciting it can be!

Comments :

"These are well organized programs of substance" Will, Wooddale Village

"Wonderful & exciting information, We love you!" Ellie, Forum at Desert Harbor

"Bring her back!" Hap, Pueblo Norte

**Programs brought to you by the ENVIRONMENTAL CONSERVATION ORGANIZATION,
science & environmental education specialists presenting unique programs for all
ages – over 40 years combined experience! Cost/program: \$150**
